

CreditCollections is an enterprise workflow application that assists credit providers managing the hand-over of default accounts to attorneys for collection. The application provides performance monitoring, SLA management and integration into backend systems.

**Benefits:**

- A single point of integration that manages the distribution of collections to call centres and collection firms.
- Collections govern the workflow of all milestone tasks within the pre-legal, legal and recoveries collections areas.
- Manages the attorney's workflow processes in accordance with that of the credit provider.

**Target Market:**

- Credit providers
- Collections firms
- Collections attorneys
