

SigningHub is a cloud-based signing solution enabling business processes to continue without the intervention of paper documents. SigningHub effectively replaces paper-based approval processes and related paper costs, while improving security and expediting business processes by managing workflow processes.

The solution provides options for either a verified digital signature or an advanced electronic signature to be applied, producing a legally admissible signature.

Business approval process efficiency improves with a more dynamic and convenient signing solution available on mobile devices and the SigningHub application for the popular iPad.

Benefits:

- A vast reduction of paper and consumables costs.
- Increasing workflow efficiency.
- Allowing for flexibility in approvals processes.
- A vast reduction of storage costs.
- Compliance with South African legislation with regards to electronic originals as stipulated by the ECT Act.

Should you require additional details relating to SigningHub, our team is on hand to assist.

Please email us at info@e4.co.za.

We look forward to hearing from you.
